I spent the first 17 years of my adult life believing I was a democrat. Maybe you have had the same experience. People make a choice: Democrat or Republican. That's what they tell you. I spent those years in total confusion wondering why none of what I was taught in school about our freedoms and rights were real. I was confused. I saw blatant censorship, cronyism, abuse of power, and a lack of concern for issues that really mattered to my family, such as affordable food, quality health care, and fair treatment without regard to race, religion or sex. The two parties only serve to hold the status quo. There are other choices we can make. As a Libertarian I hope to offer an alternative view of how a free and respectful society can operate. My background is in the adult entertainment and sex industry. So for once, you will get an honest person in office.

My position on key issues includes opposition to our continued involvement in the Middle East. I support a return to a Federal government with a vastly reduced role. We should privatize things like education, medical insurance, and social welfare. We should end the failed "war on drugs".

Fear, resentment and disgust are my strongest feelings about our federal government at the current time. Lets change this! I want to feel safe in and proud of my Country again. I want you to give me the opportunity to represent you in the House of Representatives.
